## **DETAILED ACTION**

## Allowable Subject Matter

Claims 1, 3-22 are allowed.

The following is an examiner's statement of reasons for allowance:

According to the Amendment received on 2/28/05, the Applicants amended Claim 1, canceled claim 2, and presented arguments in favor of allowance of the existing claims. The Applicants demonstrated to the Examiner's satisfaction that the primary reference of Nguyen et al (US 6,748,112) is not applicable to the Applicants' invention.

As to Claim 1, the prior art of record taken along or in combination, fails to disclose or render obvious a high resolution point sensor for locating and measuring the edges of the part, the point sensor also being installed on the positioning means and moved over the part in a non-contact manner to locate the edges of the part's surface, in combination with the rest of the limitations of the claim.

The dependent Claims 3-11 are allowed by virtue of their dependence upon Claim 1.

As to Claims 12 and 18, the prior art of record taken along or in combination, fails to disclose or render obvious a processor processing surface feature and edge information provided by the respective sensors (the area optical sensor and the high resolution sensor) and comparing the information with corresponding information from a reference of the part to determine acceptability of the part, in combination with the rest of the limitations of the claims.

Application/Control Number: 10/065,192

Art Unit: 2877

The dependent Claims 13-17, 19-22 are allowed by virtue of their dependence upon Claims 12 and 18, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
